Application Information

Once all the information has been entered you can either click **Next** on the last form, or **Save & Exit**. A warning message will appear if there are any required fields that have not been completed. The application will save with the information that has been entered but it will not be considered complete until all the required information is entered in order to submit.

Note: Ages 60 and older require a complete head to toe physical exam and a complete metabolic profile completed by a physician. If under age 60 and applicant does not have a primary care physician, has not seen a physician in the last 2 years, and does not have any medical conditions that require medical follow up, a paramed exam is an option. Your client may choose to see a physician for a complete physical assessment and lab test appropriate for age (client expense). Underwriting may offer a paramed and lab (Mutual's expense) after a review of the application.
