

## Coming soon: Dollar Cost Averaging Rider Enhancement, Effective May 15, 2021

Beginning May 15, 2021, an enhanced Dollar Cost Averaging (DCA) Rider will be available on all new business Max Accumulator+/Max Accumulator+ II and Value+ Protector/Value+ Protector II products issued on or after June 2018. **NEW** -This rider will also become available on both USL Max Accumulator+/USL Max Accumulator+ II and USL Value+ Protector/USL Value+ Protector II.

The DCA Rider is a free rider that allocates payments to Index Interest Accounts over several months so that a large portion of the policy's Accumulation Value is not subject to the market movements of only one date. Until this enhancement, the DCA Rider has only been available to support lump sum payments (both 1035s and non-1035s) and was not available for ongoing premium payment funding. The upcoming enhancement will allow planned premium payments on frequency of annual, semi-annual and single premiums to be allocated to this rider and then dispersed to the Index Interest Account over a number of months. The DCA Account offers a minimum 2.00% interest crediting rate, providing clients with additional peace of mind.

### What's changing

#### Premium Mode

- Lump sum payments (1035s and non-1035s)
- Add planned premium payments on frequency of annual, semi-annual and single premiums

#### Products Available

- All new business Max Accumulator+ and Value+ Protector products issued on and after the June 2018 versions
- Add Max Accumulator+ II & Value+ Protector II products issued on and after November 2020
- Add all new business USL IUL products, issued on or after the June 2018 version

#### Forms

- Updated Supplemental Application Form (New Business)
