

Focus on Income

What percentage of my Income Base will I get each year when I start taking Lifetime Income Withdrawals?

Your initial Lifetime Income Withdrawal is equal to your Income Base or Accumulated Value (whichever is greater) multiplied by the current Lifetime Income Withdrawal Percentage for the Income Option you select.

The table shown on the back page of this brochure has percentages based upon your Attained Age at the time you elect to receive a Lifetime Income Withdrawal and the income option selected.

Find your Lifetime Income Withdrawal Percentage

Lifetime Income Withdrawals may be reduced or may stop if you take Excess Withdrawals from your contract. If Excess Withdrawals, Withdrawal Charges or Market Value Adjustments (MVAs) reduce the contract's Accumulated Value to zero, your Lifetime Income Withdrawal Payments will stop and the rider will terminate.

The Athene Ascent Income Rider is built-in for a charge.

Guarantees provided by annuities are subject to the financial strength and claims paying ability of the issuing insurance company.
