## **CORPORATE TAX RATE**

Taxable income is taxed at a flat rate of 21%.

# **ALTERNATIVE MINIMUM TAX**

Taxpayers are subject to an "alternative minimum tax" (AMT) instead of the regular income tax when they have substantial "preference income." This is income that is treated favorably under the regular income tax. Basically, the taxpayer must pay whichever tax is higher—the regular tax or the AMT.

Filing Status	2021 Exemption	2022 Exemption
Single or head of household	\$73,600	\$75,900
Married filing jointly	\$114,600	\$118,100
Married filing separately	\$57,300	\$59,050

The exemption amounts are phased out for higher-income taxpayers. The income thresholds are:

2021 - Married filing jointly - \$1,047,200	All other taxpayers - \$523,600
2022 - Married filing jointly - \$1,079,800	All other taxpayers - \$539,900

AMT Income in Excess of Exemption 2021/2022	AMT Rate
First \$199,900* / \$206,100	26%
Above \$199,900 / \$206,100	28%

<sup>\*\$99,950 / \$103,050</sup> for married persons filing separately

# KIDDIE TAX ON UNEARNED INCOME

	2021	2022	Income Tax Bracket
First	\$1,100	\$1,150	No Tax
Next	\$1,100	\$1,150	Child's Bracket
Amounts Over	\$2,200	\$2,300	Parent's Bracket

The "kiddie tax" applies to: a) a child under age 18; b) a child age 18 whose earned income does not exceed one-half of his or her support; or c) a child age 19-23 whose earned income does not exceed one-half of his or her support, and who is a full-time student. Furthermore, the child does not file a joint income tax return and has at least one living parent at the end of the tax year.

#### **INCOME TAXATION OF SOCIAL SECURITY BENEFITS**

Retired taxpayers with incomes over certain threshold amounts are subject to income tax on their Social Security retirement benefits. The special tax base for determining whether a taxpayer's benefits are subject to tax equals one-half of Social Security benefits plus all other income (including tax-exempt income).

Tax Base	% of Benefits Taxed
\$25,000 - \$34,000	50%
Over \$34,000	85%
\$32,000 - \$44,000	50%
Over \$44,000	85%
Depends on whether the spouses live together	
	\$25,000 - \$34,000 Over \$34,000 \$32,000 - \$44,000 Over \$44,000

For example, a married couple filing jointly has an adjusted gross income of \$30,000, tax-exempt interest of \$3,000, and receives \$24,000 in Social Security benefits. The special tax base for the couple equals \$45,000, and \$6,850 of the Social Security benefits are taxable  $(.50 \times $12,000 = $6,000; .85 \times $1,000 = $850; total $6,850)$ .

## STANDARD DEDUCTION

**Amount -** The standard deduction is a flat amount that a taxpayer may deduct in lieu of itemizing deductions. The standard deduction amount for each taxpayer category is:

Taxpayer Status	2021	2022
Single	\$12,550	\$12,950
Married filing jointly	\$25,100	\$25,900
Head of household	\$18,800	\$19,400
Married filing separately	\$12,550	\$12,950

Age 65 or Blind - Taxpayers who are age 65 or over, or who are blind, may take an additional standard deduction (provided they do not itemize). For 2021, the additional standard deduction amount is \$1,350 if married or \$1,700 if the person is unmarried and not a surviving spouse. For 2022, the additional standard deduction amount is \$1,400 if married or \$1,750 if the person is unmarried and not a surviving spouse.

#### ITEMIZED DEDUCTIONS

Interest Expense - Most personal interest paid is not deductible, with certain important exceptions:

#### Deductible

- Mortgage interest on one or two residences up to \$750,000 of indebtedness (applies only to new mortgages taken out after December 15, 2017; older mortgages remain tied to the \$1,000,000 cap)
- 2. Points on home mortgages
- 3. Business interest
- 4. Investment interest up to net investment income

#### Not Deductible

- 1. Auto loan interest
- 2. Credit card interest
- 3. Home equity loan interest
- 4. Most other consumer loan interest
- 5. Prepaid interest other than points on home mortgages

**State and Local Taxes** - Itemizers may deduct either state and local income taxes, or state and local sales taxes. Also, itemizers may deduct state and local real property taxes and personal property taxes. The combined deduction for state property and income taxes is capped at \$10,000. Taxpayers may not deduct state and local taxes in calculating the AMT unless they are deductible in computing adjusted gross income ("above-the-line" deductions, not itemized).

**Medical and Dental Expenses -** Expenses paid for nearly all medical, dental and vision care during the year, and not reimbursed by insurance or other means, are deductible by itemizers to the extent that the total of such expenses exceeds 7.5% of AGI.

**Losses -** Individuals can deduct two basic types of losses: 1) business losses incurred in the taxpayer's unincorporated business, or 2) investment losses if the investment was originally motivated by profit. Casualty and theft losses are not deductible except for declared national disasters.

# **DEDUCTION FOR QUALIFIED BUSINESS INCOME**

Owners of pass-through entities are taxed on business income at their individual income tax rates, but may claim a 20% deduction of their share of the business income—even if they elect to use the standard deduction instead of itemizing.

A number of "specified service trades or businesses" do not qualify for the deduction, subject to the following thresholds on qualified business income:

	2021	2022
Married filing jointly	\$329,800	\$340,100
Married filing separately	\$164,925	\$170,050
Single/Head of Household	\$164,900	\$170,050

These business owners face a deduction limitation phase-in equal to \$100,000 for married filing jointly and \$50,000 for all other filers.

20%	over \$459,750	over \$517,200	over \$488,500	over \$13,700

<sup>\*</sup>One half of these amounts in the case of married filing separately.

**Holding Period -** The long-term rate generally applies to gains on the sale of capital assets held for more than one year.

**Short-Term Capital Gains -** Net short-term capital gains (on sales of capital assets held for one year or less) are taxed at ordinary income rates.

**Collectibles** - Long-term capital gain from the sale of collectibles is taxed at a top rate of 28%.

**Capital Losses -** After capital gains and losses are netted against one another, any remaining net capital loss may be used to offset ordinary income up to \$3,000 per year. Any excess net capital loss may be carried over and used in future years.

**Sale of a Principal Residence -** A seller of any age who has owned and used real property as a principal residence for at least two of the last five years can exclude from gross income up to \$250,000 (\$500,000 if married filing jointly) of gain realized on a sale.

Additional Tax on High-Income Taxpayers - Individuals with more than \$200,000 in income (\$250,000 for a married couple filing jointly), who also have investment income, will pay an additional tax of 3.8% on net investment income or the excess of modified adjusted gross income over the threshold amount (whichever amount is less). Investment income is defined as the sum of gross income from items such as interest, dividends, annuities, royalties, and rents, as well as net gain attributable to the disposition of property (i.e., capital gains).

<sup>1</sup> The applicable "percentage limitation" applies to the donor's contribution base, which is the donor's adjusted gross income (AGI) determined without regard to any net operating loss carryback. The limitation is applied on an annual basis. Any deductible contributions that exceed the current year's limitations may be carried over and deducted in the five succeeding tax years, subject to the percentage limitations in those years.

- 2 "Ordinary income property" is property that would produce ordinary income if sold by the individual.
- 3 "Short-term capital gain property" is property that would produce short-term capital gain if sold by the individual.
- 4 "Long-term capital gain property" is property that would produce long-term capital gain if sold by the individual.

# REQUIRED MINIMUM DISTRIBUTIONS (RMDs)

Starting in 2020, the required beginning date for RMDs is age 72 (up from age  $70^{1}/2$ ). Those who turned  $70^{1}/2$  in 2019 or earlier remain subject to the previous minimum distribution rules and were required to take an RMD in 2020 and beyond.

Note: This change to the RMD rules did not affect the rules for making Qualified Charitable Distributions—donors may still make QCDs directly from an IRA to charity starting at age 70<sup>1</sup>/2.

An individual who inherits retirement account assets must distribute those assets within 10 years of the account owner's death, with no RMDs required during those 10 years. However, the following "Eligible Designated Beneficiaries" are excluded from this change and remain subject to the previous rules, which allow them to "stretch" payments over their life expectancy:

- Surviving spouses
- Minor children (until they reach the age of majority)
- · Disabled or chronically ill individuals
- Individuals less than 10 years younger than the decedent
