SPECIAL FEATURES AND BENEFITS	Intended for individuals who are looking for a product that could offer the potential to earn interest based upon outside indexes and are willing to assume certain risks. The FFIUL offers both an S&P 500 <sup>®</sup> Index Account, which utilizes the S&P 500 <sup>®</sup> Index to determine Excess Index Interest, and a Global Index Account, which uses the S&P 500 <sup>®</sup> Index, the EURO STOXX 50 <sup>®</sup> Index, and the Hang Seng Index to determine Excess Index Interest. Additionally, there is a Basic Interest Account which earns interest at a rate declared by the company.	
GUARANTEED MINIMUM INTEREST RATE	2% for the Basic Interest Account; 0.75% for the S&P 500 <sup>®</sup> and Global Index Accounts	

<sup>1</sup> Minimum insured age is 15 days.

<sup>2</sup> Accelerated Death Benefits may be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

<sup>3</sup> Not available in New York

<sup>4</sup> It is possible that additional payments will be required to keep a policy in force while the monthly deductions are being waived. For example, loan interest accruing on an outstanding loan may require additional payments.

<sup>5</sup> It is possible that additional payments will be required to keep a policy in force while the Disability Waiver of Premium Benefit is being paid. For example, an increase in monthly deductions or decrease in policy value may require additional payments.

<sup>6</sup> A portion of each monthly payment and a portion of the final lump sum payable under the policy's Income Protection Option are reportable as interest income. The policy illustration provides the tax-reportable percentage for each monthly income payment and the final lump sum based on a 3% guaranteed minimum interest rate and the illustrated face amount. Upon the insured's death, the actual taxable portion of each monthly payment will be calculated and communicated to the beneficiary or beneficiaries based on the actual payout amounts. The taxable portion of the final lump-sum payment will be determined when the payment is made.

<sup>7</sup> Not all riders are available if the LTC Rider is selected.

<sup>8</sup> After the No-Lapse Period or if the cumulative Minimum Monthly No-Lapse Premium requirements are not met, then fluctuations in interest rates and/or policy charges may require the payment of additional premiums to keep the policy in force. Guarantees are based on the claims-paying ability of the company.

POLICY TYPE	INDEX UNIVERSAL LIFE
<b>TRANSFERS</b>	Transfers from the S&P 500® Index Account or Global Index Account to the other accounts are allowed at the end of a Segment Period. Transfers from the Basic Interest Account to the other accounts are only allowed on the first day of a policy month, which generally does not correspond to the calendar month. Automatic Transfer Rule (ATR) is for those policy owners who would like to maintain a specific percentage of their policy value in certain accounts. The ATR only applies to segments; not to the total policy value. At the end of the segment, the policy value in that segment is rebalanced to match the policy owner's requested allocation.
<b>WITHDRAWALS<sup>9</sup></b>	Maximum is cash surrender value minus \$500. Minimum withdrawal amount allowed is \$500. Subject to a \$25 withdrawal fee. Excess Index Interest will not be credited on amounts taken as withdrawals from an Index Account Segment prior to the end of the Segment Period. Available after the Free-Look Period ends.
<b>CONVERSION OPTION</b>	Conversions from term policies are allowed during the term contract's first five years, subject to conversion guidelines.
<b>LOANS<sup>7</sup></b>	Minimum: \$500 Maximum: The policy value minus the loan balance, minus the loan interest that will accrue prior to the next anniversary, minus the greater of the surrender charge or two monthly deductions Availability: After the Free-Look Period ends Excess Index Interest will not be credited on amounts taken as loans from an Index Account Segment prior to the end of the Segment Period.
<b>POLICY FEE<sup>10</sup></b>	\$10/month current; \$12/month guaranteed
<b>COST OF INSURANCE<sup>10</sup></b>	Charge varies based on insured's age, class of risk and gender, and the policy's face amount and duration.
<b>PER UNIT CHARGE<sup>9</sup></b>	A charge per thousand of the face amount of the Base Policy and Additional Insured Rider (AIR). This charge varies by gender, tobacco use, age of the insured, and the face amount band. Base: On a current basis, the charge applies for 10 years from issue and 10 years from the date of any face amount increase. On a guaranteed basis, the charge remains level and applies for all years. State variations may apply. AIR: This charge applies to any Additional Insured Rider for 10 years from rider issue date and 10 years from the date of any increase in rider face amount.
<b>PREMIUM EXPENSE CHARGE<sup>10</sup></b>	As premiums are paid: current 4%; guaranteed 6%. PR: 6% current; 8% guaranteed.
<b>INDEX ACCOUNT MONTHLY CHARGE</b>	0.06% monthly (0.72% annually) of the value in the index accounts, taken on the monthly policy date through age 120, pro rata by account value, then pro rata across segments within each account

<sup>9</sup> Loans, withdrawals, and death benefit accelerations will reduce the policy value and death benefit. Provided the policy is not and does not become a modified endowment contract (MEC), 1) withdrawals are tax-free to the extent that they do not exceed the policy basis (generally, premiums paid less withdrawals) and 2) policy loans are tax-free as long as the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan plus other distributions at that time exceed the policy basis.

<sup>10</sup> The company has the right to change current charges and cost of insurance rates. The company may not charge more than the guaranteed maximum charges or rates. Any changes to charges or rates will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to, mortality, interest, persistency, expenses, reinsurance costs, and state and federal taxes. Any increased policy charges, partial withdrawals or loans, failure to pay planned premiums, or worse than expected index performance can (a) reduce the amount of future withdrawals or loans that can be taken and (b) in many cases, increase the risk of policy lapse, reduce the death benefit proceeds, and increase the amount of monthly deductions.

This is a brief overview of the *Transamerica Financial Foundation IUL*. For further details, including fees and charges associated with this product, please refer to the consumer brochure. Certain features, terms, and charges associated with this product may vary by jurisdiction. All guarantees are based on the claims-paying ability of the insurance company.

**Index universal life insurance is not a security** and index universal life insurance policies are not an investment in the stock market or in financial market indexes. Index Account Interest is based, in part, on index performance. Past performance of an index is not an indication of future index performance.

There is no guarantee that any Excess Index Interest will be credited above the guaranteed minimum interest rate for the Index Account(s). Additionally, there is no guarantee that the company will declare an interest rate greater than the guaranteed minimum interest rate for the Basic Interest Account.
