1) Some states may limit the definition of terminal illness to conditions that are expected to result in death within 12 months. Chronic is not available on term products or products with term riders in California. The riders are offered at no additional premium. However, the accelerated payment will be less than the requested death benefit because it will be reduced by an actuarial discount and an administrative fee of up to \$500. The actuarial discount is primarily dependent on the life expectancy of the insured at the time of the election. Policy Form Series: IUL19; ABR14-TM; ABR14-CH; ABR14-CT (Forms may vary by state).
