

Protective Indexed ChoiceSM UL

Don't sell your IUL clients short

Did you know that Protective's IUL could provide your clients with more value at year 20 than what you're currently offering them?

That's because we take the long view with our products. We illustrate our responsibly designed Protective Indexed Choice UL with a more realistic rate and keep policy expenses low. The result? Your clients are more likely to get the benefits they expect, and more — like longer guarantees¹ and greater cash value potential.

See how our IUL stacks up against other IUL products when illustrated at 5% with an annual premium of \$11,981:
