Signature Term Life Insurance That Works for You

Annual Renewable Term (ART)

Many individuals have a short term need for life insurance. Those that desire short term life insurance protection at a minimal cost can consider an Annual Renewable Term (ART) policy.

An ART policy is considered a one-year policy that automatically renews at the end of each year. The premiums are guaranteed for the first 10 years; however, the annual premiums will increase each year because of your age. Over 10 years, the premiums paid are designed to be comparable to the premiums paid for a 10-year level premium term policy.

If you no longer need insurance, you can choose to terminate the policy or, if your insurance needs change, there are options available that allow you to convert the ART policy to a level premium term policy or a permanent policy.

Level Premium Term

When the need for protection is at least 10 years, a level premium term life policy may be the right fit. This option can be a good choice when you are looking for pure protection at a minimized cost.

Level Premium Term means that for a set term period, your premiums will remain the same. You are able to choose the face amount of the policy and the length of the term that meets your insurance needs. At the end of your selected level term period, the policy will renew each year with the coverage ending at age 95. The premiums after the level term period will increase annually due to your current age and economic conditions.

Signature Term offers level premium term periods of 10, 15, 20, and 30 years.

If your insurance needs change after a level term policy has been purchased, there are options available that allow you to convert the policy to a permanent policy.

OVER A 10 YEAR PERIOD, ART PREMIUMS PAID ARE DESIGNED TO BE COMPARABLE TO THE PREMIUMS PAID FOR A 10 YEAR LEVEL TERM POLICY.

Policy Conversion and Conversion Credits

Convert to a permanent policy

If you find there is a need for permanent protection or a desire to build cash value, the term policy may be converted to any individual permanent life insurance policy currently offered by American National. The converted policy will use the same underwriting basis and be issued at an equivalent rate class.

- The conversion option will expire on the policy anniversary at the end of the level premium term period or on the policy anniversary following the insured's attained age of 65, whichever occurs first. However, the conversion period will never be less than 5 years.
- May be eligible for a conversion credit towards the new policy. (see below)

Convert an ART policy to another term policy

If you find that you need term insurance for longer than the 10-year guaranteed insurability period, you may be able to convert the ART policy to a level premium term policy.

- Limited to an ANICO Signature Term 20 or 30 year level premium policy.
- Only available in the first 3 policy years.
- Not eligible for conversion credits.

Conversion Credits

American National will provide a premium conversion credit towards the new permanent policy equal to 100% of the annual premium on an ANICO Signature Term policy for conversions that occur during the 2nd through 5th policy year.

- Conversions in the first policy year will receive a prorated premium credit.
- The conversion credit is only available on conversions to permanent products.

Additional restrictions may apply, see your agent for more information.

Policy Form Series: ABR14-CT; ABR14-CH; ABR14-TM (ND & SD Form Series ABR22-CT; ABR22-CH; and ABR22-TM); ABR14-TM(NY); ABR14-CH(NY). Forms will vary by state and may not be available in all states. Have your agent refer to rider forms for a complete list of illnesses and definitions. Some states may limit the definition of terminal illness to conditions that are expected to result in death within 12 months. The riders are subject to an administrative fee of up to \$500 and an actuarial discount that will be assessed when the benefit is elected. The amount of the actuarial discount is primarily dependent on American National's determination of the insured's life expectancy at the time of election. Outstanding policy loans will reduce the amount of the benefit payment. The accelerated death benefit is an unrestricted cash payment. The Chronic and Terminal Illness Riders are intended to receive favorable tax treatment under 101(g) of the IRC. Receipt of a benefit could be a taxable event. You should consult a tax advisor regarding the tax status of any benefit paid under these riders. Receipt of accelerated benefits may affect your eligibility for Medicaid, supplemental security income, or other governmental benefits or entitlements. Before accelerating any benefit you should consult an advisor to determine the impact on your eligibility. Accelerated Benefit Riders ("ABR") and long-term care insurance ("LTCI") provide different types of benefits. An ABR allows the insured to access a portion of the life insurance policy's death benefit while living and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or cognitive impairment. Coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult day care, hospice services or respite care for the primary caretaker. The benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Benefits under some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired.
