**The ML Strategic Balanced Index<sup>®</sup>** embeds an annual index cost in the calculations of the change in index value over the index term. This "embedded index cost" will reduce any change in index value over the index term that would otherwise have been used in the calculation of index interest, and it funds certain operational and licensing costs for the index. It is not a fee paid by you or received by American General Life Insurance Company ("AGL"). AGL's licensing relationship with Merrill Lynch, Pierce, Fenner & Smith Incorporated for use of the ML Strategic Balanced Index and for use of certain service marks includes AGL's purchase of financial instruments for purposes of meeting its interest crediting obligations. Some portion of those instruments will, or may be, purchased from Merrill Lynch, Pierce, Fenner & Smith Incorporated or its affiliates.

The ML Strategic Balanced Index® provides systematic, rules-based access to the blended performance of the S&P 500® (without dividends), which serves to represent equity performance, and the Merrill Lynch 10-year U.S. Treasury Futures Total Return Index, which serves to represent fixed income performance. To help manage overall return volatility, the Index may also systematically utilize Cash performance in addition to the performance of these two underlying indices.

The Product is not sold, sponsored, endorsed or promoted by PIMCO or any other party involved in, or related to, making or compiling the Index. Neither PIMCO, the index calculation agent nor any of the constituent owners provides investment advice to AGL with respect to the Product or to owners of the Product.

## Important Information on The Power Series of Index Annuities

Index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. They provide the potential for interest to be credited based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be appropriate for all individuals.

Withdrawals may be subject to federal and/or state income taxes. An additional 10% federal tax may apply if you make withdrawals or surrender your annuity before age 59½. Consult your tax advisor regarding your specific situation.

Index interest accounts are not a permanent part of the contract and may be removed due to circumstances beyond the control of American General Life Insurance Company. Such circumstances include, but are not limited to, the discontinuation of an index, a change in the composition or calculation of an index, the inability to license the use of an index and the inability to hedge risks associated with these index interest accounts. Special rules govern how assets in a discontinued index interest account may be reallocated. These rules may differ by state. Please see the Owner Acknowledgment and Disclosure Statement for more information.

All contract and optional benefit guarantees, including any fixed account crediting rates or annuity rates, are backed by the claims-paying ability of the issuing insurance company. They are not backed by the broker/dealer from which this annuity is purchased, by the insurance agency from which this annuity is purchased or any affiliates of those entities and none makes any representation or guarantees regarding the claims-paying ability of the issuing insurance company.

**Annuities are issued by American General Life Insurance Company (AGL), Houston, Texas. Power 10 Protector and Power 10 Protector Plus Income Modified Single Premium Deferred Fixed Index Annuities (Single Premium Only in Oregon), Contract Number AG-800 (12/12).**
