## Take clients beyond protection with living benefits

In addition to guaranteed death benefit protection, an IUL can help clients with:

- The need to build wealth through potential cash value that grows tax-deferred. An income tax-free financial resource through policy loans or withdrawals.<sup>1</sup>
- Business needs through planning strategies that can help business owners recruit, reward and retain top talent.
- Long-term care needs through riders that provide an extra layer of financial protection and some peace of mind.

<sup>1</sup> Distributions are taken through loans and withdrawals, which reduce a policy's cash surrender value and death benefit and may cause the policy to lapse.
