Guarantees are based on the financial strength and claims paying ability of American Equity and are not guaranteed by any bank or insured by the FDIC.

Bonus credited on all first year premiums, the bonus increases the contract value by 10% of the premium paid. The bonus is added to the contract value the same date the premiums are received, and vests over a 10 year period. Starting in the second contract year, a percentage of the bonus becomes guaranteed annually. That percentage increases each year through the 10th contract year according to the bonus vesting (BV) schedule. The bonus is 100% vested in the death benefit as of the contract date.

Surrender charges may be higher in contracts with a premium bonus than contracts without a premium bonus, and may exceed the premium bonus.
