

Rates Effective: 8/1/2023

Rates are set every two weeks and may change without notice. Depending on market conditions, rates may be set more frequently. Withdrawals and early surrenders will lower returns.

ANNUITY INTEREST RATE NOTIFICATION

INDEXED ANNUITY

Protective® Income Builder Indexed Annuity

Available in all states except NY

7-Year Withdrawal Charge Schedule						
Index	S&P 500® Index			Citi Flexible Allocation 6 Excess Return Index		Fixed Rate
Interest Crediting Strategy	Annual Pt-to-Pt Rate Cap ¹	Annual Trigger Rate ²	Annual Rate Cap for Term ³	2-year Participation Rate and Spread ⁴		
Contract value \$100,000+	6.00%	4.00%	5.00%	Participation Rate	100.00%	2.55%
				Spread	N/A	2.55%
Contract value under \$100,000	5.70%	3.70%	4.70%	Participation Rate	92.00%	2.40%
				Spread	N/A	2.40%

A minimum surrender value is guaranteed when the contract is terminated due to full surrender, death, or annuitization. This amount is calculated by:

- Taking 87.5% of aggregate purchase payments accumulated at the contract's non-forfeiture rate, which cannot be less than 1% or more than 3%, and
- Subtracting any prior aggregate withdrawals (including withdrawal charges) accumulated at the non-forfeiture rate.

¹ Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. The interest credited is equal to the percentage change of the index up to the interest rate cap, but not less than 0%. The interest rate cap is first set when you purchase the contract and thereafter, annually at the beginning of each contract year. When market index performance is flat or negative, no interest is credited for that year.

² Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. The indexed interest rate is first set when you purchase the contract and thereafter, annually at the beginning of each contract year. This strategy credits a predetermined trigger interest rate when market index performance is flat or positive. When market index performance is negative, no interest is credited for that year.

³ Amounts allocated to this strategy earn interest in arrears based, in part, on the performance of the S&P 500® Index. When market index performance is positive, this strategy credits interest equal to the market index performance — up to a maximum of the interest rate cap in effect for that year. This option guarantees the interest rate cap to be locked in and remain constant for the entire withdrawal charge period, then subject to change annually thereafter. When market performance is flat or negative, no interest is credited for that year.

⁴ Amounts allocated to this strategy earn interest in arrears, based in part on the performance of the Citi Flexible Allocation 6 Excess Return Index. The crediting period is two years. This strategy credits interest by multiplying the index performance by the participation rate and then subtracting the spread. A positive result is the interest rate for that term. If the result of that calculation is 0% or negative, no indexed interest will be credited for that term. This strategy has a participation rate declared in advance, subject to the minimum participation rate, and is guaranteed for each two-year crediting period with a spread that is guaranteed to remain 0% for the life of the contract. The crediting strategy will not reduce the contract value, even if the index performance is flat or negative.

This annuity rate notification is intended only as a summary of the current rates and index crediting strategies offered for the listed product(s). The insurance company sets interest rates at its sole discretion and cannot guarantee or predict future interest rates. All non-guaranteed components of the indexing formula may change and could be different in the future. For product details, benefits, limitations and exclusions, please consult the contract, product guide and disclosure statement. These documents describe the terms and conditions that control the insurance company's contractual obligations. Indexed interest could be less than that earned in a traditional fixed annuity, and could be zero.

Protective is a registered trademark of Protective Life Insurance Company; Income Builder is a trademark of Protective Life Insurance Company.
