This material is not authorized for use unless preceded or accompanied by The Power Series of Index Annuities (16110CON) consumer brochure and Owner Acknowledgment and Disclosure Statement. Rates shown are NOT interest rates. See page 3 for applicable minimum rates and other important information. New rates may apply after the end of the first index term and are subject to minimum and maximum guarantees. Minimum or maximum rates apply after the end of the first index term. The participation rate is set at 100% unless otherwise noted.

Key terms and information

Index rate cap: Maximum percentage of index performance that can be credited as interest over an index term. For example: 10% index change > 5% cap = 5% interest earned.

Participation rate: Percentage of index performance that is used to calculate interest. For example: 10% index change x 50% PAR rate = 5% interest earned.

Premium: Money used to purchase the annuity. In Oregon, a Power Series Index Annuity can only be issued with a single premium. No additional premiums are allowed.

Note: Enhanced Participation Rate (EPR) accounts are available for an annual fee. You may receive higher interest credits in EPR accounts, but interest credits are not guaranteed. At the end of your contract's withdrawal charge period, if the total amount of EPR strategy fees exceeds the total interest earned in the annuity, the difference will be credited to your annuity.

The ML Strategic Balanced Index® is a hybrid index that seeks growth and risk management by actively allocating to equities, fixed income and cash. It embeds an annual index cost in the calculations of the change in index value over the index term. This “embedded index cost” will reduce any change in index value over the index term that would otherwise have been used in the calculation of index interest, and it funds certain operational and licensing costs for the index. It is not a fee paid by you or received by American General Life Insurance Company (“AGL”). AGL’s licensing relationship with Merrill Lynch, Pierce, Fenner & Smith Incorporated for use of the ML Strategic Balanced Index® and for use of certain service marks includes AGL’s purchase of financial instruments for purposes of meeting its interest crediting obligations. Some portion of those instruments will, or may be, purchased from Merrill Lynch, Pierce, Fenner & Smith Incorporated or its affiliates.

The ML Strategic Balanced Index® provides systematic, rules-based access to the blended performance of the S&P 500® (without dividends), which serves to represent equity performance, and the Merrill Lynch 10-year U.S. Treasury Futures Total Return Index, which serves to represent fixed income performance. To help manage overall return volatility, the Index may also systematically utilize Cash performance in addition to the performance of these two underlying indices.

Merrill Lynch, Pierce, Fenner & Smith Incorporated and its affiliates (“BofA Merrill Lynch”) indices and related information, the name “BofA Merrill Lynch”, and related trademarks, are intellectual property licensed from BofA Merrill Lynch, and may not be copied, used, or distributed without BofA Merrill Lynch’s prior written approval. The products of licensee AGL have not been passed on as to their legality or suitability, and are not regulated, issued, endorsed, sold, guaranteed, or promoted by BofA Merrill Lynch. **BOFA MERRILL LYNCH MAKES NO WARRANTIES AND BEARS NO LIABILITY WITH RESPECT TO ANY INDEX, ANY RELATED INFORMATION, ITS TRADEMARKS, OR THE PRODUCT(S) (INCLUDING WITHOUT LIMITATION, ITS QUALITY, ACCURACY, SUITABILITY AND/OR COMPLETENESS).**

The ML Strategic Balanced Index® (the “Index”) is the property of Merrill Lynch, Pierce, Fenner & Smith Incorporated, which has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Index. The Index is not sponsored by S&P Dow Jones Indices or its affiliates or its third party licensors (collectively, “S&P Dow Jones Indices”). S&P Dow Jones Indices will not be liable for any errors or omissions in calculating the Index. “Calculated by S&P Dow Jones Indices” and the related stylized mark(s) are service marks of S&P Dow Jones Indices and have been licensed for use by Merrill Lynch, Pierce, Fenner & Smith Incorporated.

Important information on The Power Series of Index Annuities

Index annuities are not a direct investment in the stock market. They are long-term insurance products with guarantees backed by the claims-paying ability of the issuing insurance company. They provide the potential for interest to be credited based in part on the performance of the specified index, without the risk of loss of premium due to market downturns or fluctuations. Index annuities may not be appropriate for all individuals.

Withdrawals may be subject to federal and/or state income taxes. An additional 10% federal tax may apply if you make withdrawals or surrender your annuity before age 59½. Consult your tax advisor regarding your specific situation.

Index interest accounts are not a permanent part of the contract and may be removed due to circumstances beyond the control of American General Life Insurance Company. Such circumstances include, but are not limited to, the discontinuation of an index, a change in the composition or calculation of an index, the inability to license the use of an index and the inability to hedge risks associated with these index interest accounts. Special rules govern how assets in a discontinued index interest account may be reallocated. These rules may differ by state. Please see the Owner Acknowledgment and Disclosure Statement for more information.

All contract and optional benefit guarantees, including any fixed account crediting rates or annuity rates, are backed by the claims-paying ability of the issuing insurance company. They are not backed by the broker/dealer from which this annuity is purchased.
