

Protecting Our Customers' Incomes for More than 110 Years

At Mutual of Omaha, we have a long history of helping people protect their incomes.

Our newest disability income insurance product, Mutual Income SolutionsSM, builds on our more than 110 years' experience providing income protection solutions that can make a difference when people need it the most.

Here are just some of the ways Mutual Income Solutions may help protect your clients' families, financial goals and lifestyles:

- **Increased benefit amounts** – with an individual maximum monthly benefit of \$20,000, you can meet the needs of high-earning individuals.
- **Expanded occupation classes** – our higher monthly benefit amounts expand the number of occupations you can target, including those in the medical profession.
- **Several optional benefits** – help your clients customize their policy with optional benefits, which can enhance and expand their coverage.
- **Non-cancelable option** – your clients can select a non-cancelable option, which guarantees their coverage for the duration of the benefit period, if paid on time, and locks in their premium amounts.

Making it Easier for You To Do Business

Mutual of Omaha wants to provide you an efficient and hassle-free sales experience. Here's how we're making that happen:

- Our e-Application helps your business get issued faster
- Our producer portal keeps you in the loop so you always know the status of a case
- A client portal enables your customers to upload requested financial documents
