# Life insurance products for your success

The John Hancock life insurance portfolio is a comprehensive suite of universal, indexed, variable and term products designed to be among the most competitive in the industry.

And when you combine the power of a John Hancock life insurance policy with the value and incentives of the John Hancock Vitality Program, you have a powerful combination to help your clients protect and preserve their wealth and maintain their health.

Our goal is to make the sales process as easy as possible for you. We've created this easy-to-use reference guide, organized by product type and key benefits to help you quickly match our products with your clients' specific needs and goals.

## John Hancock Vitality

At John Hancock, we want to help your clients get the financial protection they are looking for and help them live longer, healthier lives. That's why we introduced John Hancock Vitality — life insurance designed to protect wealth and maintain health.

There are two versions of the John Hancock Vitality Program to choose from: Vitality GO, a basic version that comes with every John Hancock life insurance policy at no cost, and Vitality PLUS, which includes more opportunities for rewards, discounts and significant premium savings.

Vitality GO is not available with policies issued in New York.  
Vitality PLUS is not available on Protection Term.

# Indexed universal life insurance

Indexed universal life is a type of flexible-premium permanent life insurance that offers the same features as traditional universal life but with an opportunity to earn interest linked to the performance of a financial index, while also protecting the policy's cash value from market risk with a guaranteed floor of 0%. Generally, indexed universal life policies have more cash value accumulation potential than other universal life products.

# Strength. Stability. John Hancock.

John Hancock is among the highest-rated companies for financial strength and stability as demonstrated by its A+ rating from A.M. Best.<sup>6</sup> Financial strength ratings are a comprehensive measure of a company's financial strength and stability, and are important as they reflect a life insurance company's ability to pay claims in the future.

With over 160 years of experience, John Hancock offers clients a diverse range of insurance products and services through its extensive network of employees, agents, and distribution partners.

6. Second highest of 13 ratings (superior ability to meet ongoing insurance obligations). Financial strength rating is current as of March 31, 2024, is subject to change, and applies to John Hancock Life Insurance Company (U.S.A.) and John Hancock Life Insurance Company of New York as a measure of each company's financial ability to pay claims and to honor any guarantees provided by the contract and any applicable optional riders. These companies have also received additional financial strength ratings from other rating agencies. Financial strength ratings are not an assessment, recommendation, or guarantee of specific products and their investment returns or value, do not apply to individual securities held in any portfolio or the practices of an insurance company, and do not apply to the safety and performance of separate accounts.

Protection UL (PUL), Protection SUL (PSUL), Protection IUL (PIUL), Protection SIUL (PSIUL) policies automatically include a no-lapse guarantee called Death Benefit Protection. This feature guarantees that the policy will not default, even if the cash surrender value falls to zero or below, provided that the Death Benefit Protection Value remains greater than zero and policy debt never exceeds the Policy Value. Once terminated, the Death Benefit Protection feature cannot be reinstated.

The No-Lapse Guarantee (NLG) is automatically included with Accumulation IUL (AIUL). It guarantees that the policy will not default, even if the cash surrender value falls to zero or below, provided the NLG cumulative premium test (performed at the point of lapse) is satisfied. Once lapsed, the guarantee cannot be reinstated. The policy owner can catch-up to the NLG premium requirement - interest free - at any time during the NLG period. The NLG duration varies by issue age.

Protection VUL (PVUL) policies automatically include a no-lapse guarantee called the Death Benefit Protection rider which is optimized for an age-80 guarantee - or, if elected for an additional cost, an Enhanced Death Benefit Protection rider which is optimized for an age-100 guarantee. Both technically provide a guarantee to age 121 if enough premium is paid. Each of these options guarantees that the policy will not default, even if the cash surrender value falls to zero or below, provided that the Net Death Benefit Protection Value remains greater than zero and policy debt does not exceed the policy value. Once terminated, the Death Benefit Protection rider or Enhanced Death Benefit Protection rider cannot be reinstated. See the product guide for additional details.

The No-Lapse Guarantee (NLG) is automatically included with Accumulation VUL (AVUL) & Accumulation SVUL (ASVUL). It guarantees that the policy will not default, even if the cash surrender value falls to zero or below, provided the NLG cumulative premium test (performed at the point of lapse) is satisfied. Once lapsed, the guarantee cannot be reinstated. The policy owner can catch-up to the NLG premium requirement - interest free - at any time during the NLG period. The NLG duration varies by issue age.

For details on specific product features, benefits, riders, death benefit guarantees, and certain state variations, please see the applicable product producer guide.

Accumulation IUL and Protection Term are the only products approved for sale in New York.

Allocating net premiums to a Lifestyle portfolio is designed to help reduce the market volatility that one may experience through the allocation of premiums to only one or a small number of investment options. There are risks associated with any investment and it is possible to lose money by investing in the Lifestyle portfolios. John Hancock receives investment management and other fees from the John Hancock Funds and other funds advised or subadvised by its affiliates.

The portfolios described above are not retail mutual funds and are only available under variable annuity contracts, variable life policies or through participation in tax qualified retirement plans. Although the portfolios' investment adviser or subadvisers may manage retail mutual funds with similar names and investment objectives, no representation is made, and no assurance is given, that any portfolio's investment results will be comparable to the investment results of any other fund, including other funds with the same investment adviser or subadviser. Past performance is no guarantee of future results.

Neither Barclays Bank PLC ("BB PLC") nor any of its affiliates (collectively "Barclays") is the issuer or producer of the John Hancock Life Insurance Company (U.S.A.)'s (the "Company" or the "Issuer") life insurance products (the "Products") and Barclays has no responsibilities, obligations or duties to purchasers of the Products. The Barclays Global MA Index (the "Index") together with any Barclays indices that are components of the Index, is a trademark owned by Barclays and, together with any component indices and index data, is licensed for use by the Company as the issuer or producer of the Products.

Barclays' only relationship with the Issuer in respect of the Index is the licensing of the Index, which is administered, compiled and published by BB PLC in its role as the index sponsor (the "Index Sponsor") without regard to the Issuer or the Products or purchasers of the Products. Additionally, the Company as issuer or producer of the Products may for itself execute transaction(s) with Barclays in or relating to the Index in connection with the Products. Barclays shall not be liable in any way to the Issuer, Product purchaser or to other third parties in respect of the use or accuracy of the Index or any data included therein.

**Variable life insurance is sold by product and fund prospectus, which should be read carefully. They contain information on the investment objectives, risks, charges and expenses of the variable product and its underlying investment options. These factors should be considered carefully before investing.**

Variable universal life insurance has annual fees and expenses associated with it in addition to life insurance related charges. Variable universal life insurance products are subject to market risk and are unsuitable as a short term savings vehicle. Cash values are not guaranteed and will fluctuate, and the policy may lose value.

**There is risk as the performance of the underlying index may result in low segment interest credits that would require increase in premium payments in order to the keep the policy in force.**

The Long-Term Care (LTC) rider is an accelerated death benefit rider and may not be considered long-term care insurance in some states. There are additional costs associated with this rider. The Maximum Monthly Benefit Amount is \$50,000. When the death benefit is accelerated for long-term care expenses it is reduced dollar for dollar, and the cash value is reduced proportionately. Please go to [www.jhsaleshub.com](http://www.jhsaleshub.com) to verify state availability

Guaranteed product features are dependent upon minimum premium requirements and the claims-paying ability of the issuer.

Loans and withdrawals will reduce the death benefit, cash surrender value, and may cause the policy to lapse. Lapse or surrender of a policy with a loan may cause the recognition of taxable income. Policies classified as modified endowment contracts may be subject to tax when a loan or withdrawal is made. A federal tax penalty of 10% may also apply if the loan or withdrawal is taken prior to age 59½.

Insurance policies and/or associated riders and features may not be available in all states. Some riders may have additional fees and expenses associated with them.

Premium Savings will apply based on the Vitality status attained by the life insured. Rewards and discounts are subject to change and are not guaranteed to remain the same for the life of the policy.

Vitality is the provider of the John Hancock Vitality Program in connection with policies issued by John Hancock. John Hancock Vitality Program rewards and discounts are available only to the person insured under the eligible life insurance policy, may vary based on the type of insurance policy purchased and the state where the policy was issued, are subject to change and are not guaranteed to remain the same for the life of the policy.
