Accelerated Benefit Riders

The Accelerated Benefit Riders (ABRs) are offered for no additional premium. The accelerated benefit payment will be less than the requested death benefit because it is reduced by an actuarial discount and an administrative fee of up to \$500. The amount of the actuarial discount is primarily dependent on the insured's life expectancy at the time of the election. The accelerated benefit is an unrestricted cash benefit.

ABR for Terminal Illness

For use if an eligible insured is diagnosed with an illness or chronic condition that is expected to result in death within 12 to 24 months, depending on state definitions.

ABR for Chronic Illness

For use if an eligible insured is unable to perform two out of six activities of daily living (bathing, continence, dressing, eating, toileting, or transferring) or has a severe cognitive impairment (not available on products with term riders in CA).

ABR for Critical Illness

For use if an eligible insured experiences a critical illness described in the rider after the issue date. Covered critical illnesses may be found in the rider forms (not available in NY).

Minimum Policy Death Benefit to Obtain Riders

- Terminal Illness: \$25,000
- Chronic & Critical Illness: \$50,000

Maximum Death Benefit Eligible for Acceleration

- \$2,000,000 (issue ages 0 through 65)
- \$1,000,000 (issue ages 66 or older)

Policies exceeding the maximum acceleration amount will still contain the Accelerated Benefit Riders; however, the owner will only be able to accelerate up to the maximum death benefit eligible for acceleration.

There is no minimum partial acceleration request; however, the partial acceleration will not be allowed if the policy's face amount would be reduced below the minimum required for the product. The accelerated benefit may be paid in a lump sum or applied to any settlement option under the contract that does not involve life contingent payments.

Not everyone that applies will be eligible to receive accelerated benefits

If the primary insured suffers a qualifying medical condition, the base policy and any additional riders on the primary insured are eligible for acceleration. Likewise, if a spouse or other insured party suffers a qualifying condition, their specific rider benefits will be eligible for acceleration. The Children's Term Rider is not eligible for acceleration.

Upon payment of the accelerated benefit to the owner, the policy or rider(s) providing the eligible death benefit will be treated as if the insured has died if full acceleration is elected. In the event of a partial benefit, the policy or rider will be treated as if there has been a decrease to the face amount.

Accelerated Benefit Riders Important Information

Policy Form Series: ABR14-CT; ABR14-CH; ABR14-TM (ND & SD Form Series ABR22-CT; ABR22-CH; and ABR22-TM); ABR14-TM(NY); ABR14-CH(NY). Forms will vary by state and may not be available in all states. Have your agent refer to rider forms for a complete list of illnesses and definitions. Some states may limit the definition of terminal illness to conditions that are expected to result in death within 12 months. The riders are offered at no additional premium. However, the accelerated payment will be less than the requested death benefit because it will be reduced by an actuarial discount and an administrative fee of up to \$500. The amount of the actuarial discount is primarily dependent on American National's determination of the insured's life expectancy at the time of election. Outstanding policy loans will reduce the amount of the benefit payment. The accelerated benefit is an unrestricted cash payment. The Chronic and Terminal Illness Riders are intended to receive favorable tax treatment under 101(g) of the IRC. Receipt of a benefit could be a taxable event. You should consult a tax advisor regarding the tax status of any benefit paid under these riders. Receipt of accelerated benefits may affect your eligibility for Medicaid, supplemental security income, or other governmental benefits or entitlements. Before accelerating any benefit you should consult an advisor to determine the impact on your eligibility. Accelerated Benefit Riders are not replacements for Long Term Care Insurance. **This is a life insurance benefit that also gives you the potential to accelerate some or all of the death benefit in the event that you meet the criteria for a qualifying event described in the policy. This policy or certificate does not provide long-term care insurance subject to California long-term care insurance law. The policy or certificate is not a California Partnership for Long-Term Care program policy.** This policy or certificate is not a Medicare supplement policy. Accelerated benefit riders ("ABR") and long-term care insurance ("LTCI") provide different types of benefits. An ABR allows the insured to gain access to a portion of the life insurance policy's death benefit while living and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or cognitive impairment. Coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult daycare, hospice services or respite care for the primary caretaker. The benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Benefits under some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired. California: See form 10741-CM for a more detailed comparison of benefits provided by an ABR and LTCI.
