INDEX ACCOUNT OPTIONS	Global Index Account S&P 500 [®] Index Account Basic S&P 500 [®] Index Account (No IAMC) Balanced Uncapped Index Account
GUARANTEED MINIMUM INTEREST RATE	2% for the Basic Interest Account; 0.75% for all Index Account options
TRANSFERS BETWEEN ACCOUNTS	Transfers from all Index Accounts to the other accounts are allowed at the end of an annual Segment Period (15 th of the month). Transfers from the Basic Interest Account (BIA) to the other accounts are only allowed once per month on the sweep date (15 th of the month).
DOLLAR COST AVERAGING (DCA)	DCA is for policy owners who want to allocate their net premium into the Index Accounts over a period of time. DCA automatically transfers a set dollar amount from the Basic Interest Account (BIA) to Index Accounts chosen by the policy owner. Transfers to Index Account(s) occur on the monthly sweep date (15 th of the month). A minimum balance of \$2,000 in the Basic Interest Account is required to start DCA, with a minimum transfer amount of \$100. If the BIA balance falls below the desired transfer amount, no transfer will occur. DCA will reinstate automatically once the BIA balance is sufficient to process the request. DCA will terminate if the policy owner elects ATR or any transfer other than the scheduled DCA transfer. DCA is not available with ATR.

TRANSAMERICA FINANCIAL FOUNDATION IUL II

CATEGORY	PRODUCT DETAIL
AUTOMATIC TRANSFER RULE (ATR)	ATR is for those policy owners who would like to maintain a specific percentage of their policy value in certain accounts. ATR only applies to maturing Index Account Segments. The system will look for funds in the BIA and in maturing Index Account Segments on every sweep date (15 th of the month). Any unloaned policy value is rebalanced to match the policy owner's requested allocation. ATR can be elected regardless of which accounts (Index Account and/or BIA) currently have policy value, and any combination of destination accounts can be specified in whole percentages only. ATR is available at issue or any time thereafter. ATR will terminate if the policy owner elects DCA or any transfer other than the scheduled ATR. ATR is not available with DCA.
WITHDRAWALS⁸	If there is enough policy value, policy owners may take a withdrawal at any time after the first policy anniversary without incurring company-imposed surrender charges, subject to the conditions and limitations specified in the policy. Maximum withdrawal allowed is cash surrender value minus \$500. Minimum withdrawal amount allowed is \$500. Excess Index Interest will not be credited on amounts taken as withdrawals from an Index Account Segment prior to the end of the Segment Period. There is no fee for taking a withdrawal.
LOANS⁸	Minimum: \$500 (Except in FL where there is no minimum) Maximum: The policy value minus the loan balance, minus the loan interest that will accrue before the next anniversary, minus the greater of the surrender charge or two monthly deductions. Excess Index Interest will not be credited on amounts taken as loans from an Index Account Segment before the end of the Segment Period. Maximum loan amounts may vary by states. See policy for complete descriptions of loans. Standard & Preferred loans <ul style="list-style-type: none"> ▪ Available any time after the Free-Look Period ends ▪ 2% annual interest credit on loaned value ▪ Nonguaranteed current interest rates (charged annually) 2.75% standard, 2% preferred ▪ Guaranteed interest rates (charged annually) 3% standard, 2.25% preferred ▪ All loans, including existing loans, will be classified as "preferred" after 10th policy anniversary
POLICY FEE	\$10/month current; \$12/month guaranteed
COST OF INSURANCE⁹	Charge varies based on insured's age, class of risk and gender, and the policy's face amount and duration.
PER UNIT CHARGE	A charge per thousand of the face amount of the Base Policy. This charge varies by gender, tobacco use, age of the insured, and the face amount band. On a current basis, the charge applies for 16 years from issue/face amount increase. On a guaranteed basis, the charge remains level through all years. State variations may apply.
PREMIUM EXPENSE CHARGE	As premiums are paid: Current 4%; guaranteed 6%. Puerto Rico: 6% current; 8% guaranteed
INDEX ACCOUNT MONTHLY CHARGE	Basic S&P 500 does not have an IAMC. IAMC applies to S&P 500, Global Index, and Balanced Uncapped Index Accounts. 0.06% monthly (0.72% annually) of the value in the Index Accounts, taken on the monthly policy date through age 120, pro rata by account value, then pro rata across segments within each account
CONVERSION OPTION	Conversions from term policies are allowed subject to conversion guidelines.

¹ Minimum insured age is 15 days.

² After the No Lapse Period or if the cumulative Minimum Monthly No Lapse Premium requirements are not met, then fluctuations in interest rates and/or policy charges may require the payment of additional premiums to keep the policy in force. Guarantees are based on the claims-paying ability of the company.

³ The increasing death benefit option will result in higher monthly deductions over the life of the policy, compared to the level death benefit option.

⁴ Additional Services Rider/Benefit is marketed as the *Concierge Protection Rider/Benefit*. Available on policies with a face amount of \$250,000 or higher and not on direct bill monthly. Not available in all states.

⁵ Accelerated Death Benefits may be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

⁶ It is possible that additional payments will be required to keep a policy in force while the monthly deductions are being waived. For example, loan interest accruing on an outstanding loan may require additional payments.

⁷ It is possible that additional payments will be required to keep a policy in force while the Disability Waiver of Premium Benefit is being paid. For example, an increase in monthly deductions or decrease in policy value may require additional payments.

⁸ Loans, withdrawals, and death benefit accelerations will reduce the policy value and death benefit. Provided the policy is not and does not become a modified endowment contract (MEC), 1) withdrawals are tax-free to the extent that they do not exceed the policy basis (generally, premiums paid less withdrawals) and 2) policy loans are tax-free as long as the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan plus other distributions at that time exceed the policy basis.

⁹ The company has the right to change current charges and cost of insurance rates. The company may not charge more than the guaranteed maximum charges or rates. Any changes to charges or rates will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to, mortality, interest, persistency, expenses, reinsurance costs, and state and federal taxes. Any increased policy charges, partial withdrawals or loans, failure to pay planned premiums, or worse than expected index performance can (a) reduce the amount of future withdrawals or loans that can be taken and (b) in many cases, increase the risk of policy lapse, reduce the death benefit proceeds, and increase the amount of monthly deductions.

TRANSAMERICA FINANCIAL FOUNDATION IUL

POLICY TYPE	INDEX UNIVERSAL LIFE	
DESCRIPTION	Index universal life insurance with multiple account options

SPECIAL FEATURES AND BENEFITS	Intended for individuals who are looking for a product that could offer the potential to earn interest based upon outside indexes and are willing to assume certain risks. The FFIUL offers both an S&P 500 [®] Index Account, which utilizes the S&P 500 Index to determine Excess Index Interest, and a Global Index Account, which uses the S&P 500 Index, the EURO STOXX 50 [®] Index, and the Hang Seng Index to determine Excess Index Interest. Additionally, there is a Basic Interest Account which earns interest at a rate declared by the company.	
GUARANTEED MINIMUM INTEREST RATE	2% for the Basic Interest Account; 0.75% for the S&P 500 and Global Index Accounts	
DOLLAR COST AVERAGING (DCA)	DCA is for policy owners who want to allocate their net premium into the Index Accounts over a period of time. DCA automatically transfers a set dollar amount from the Basic Interest Account (BIA) to Index Accounts chosen by the policy owner. Transfers to Index Account(s) occur on the monthly policy date (15th of the month). A minimum balance of \$2,000 in the Basic Interest Account is required to start DCA, with a minimum transfer amount of \$100. If the BIA balance falls below the desired transfer amount, no transfer will occur. DCA will reinstate automatically once the BIA balance is sufficient to process the request. DCA will terminate if the policy owner elects ATR or any transfer other than the scheduled DCA transfer. DCA is not available with ATR.	

TRANSAMERICA FINANCIAL FOUNDATION IUL

POLICY TYPE	INDEX UNIVERSAL LIFE
TRANSFERS	Transfers from the S&P 500® Index Account or Global Index Account to the other accounts are allowed at the end of a segment period. Transfers from the Basic Interest Account to the other accounts are only allowed on the first day of a policy month, which generally does not correspond to the calendar month. Automatic Transfer Rule (ATR) is for those policy owners who would like to maintain a specific percentage of their policy value in certain accounts. The ATR only applies to segments; not to the total policy value. At the end of the segment period, the policy value in that segment is rebalanced to match the policy owner's requested allocation.
WITHDRAWALS¹⁰	Maximum is cash surrender value minus \$500. Minimum withdrawal amount allowed is \$500. Excess Index Interest will not be credited on amounts taken as withdrawals from an Index Account Segment prior to the end of the segment period. Available after the first policy year.
CONVERSION	Conversions from term policies are allowed subject to conversion guidelines.
LOANS¹⁰	Minimum: \$500 Maximum: The policy value minus the loan balance, minus the loan interest that will accrue prior to the next anniversary, minus the greater of the surrender charge or two monthly deductions Availability: After the Free-Look Period ends Excess Index Interest will not be credited on amounts taken as loans from an Index Account Segment prior to the end of the segment period.
POLICY FEE¹¹	\$10/month current; \$12/month guaranteed
COST OF INSURANCE¹¹	Charge varies based on insured's age, class of risk and gender, and the policy's face amount and duration.
PER UNIT CHARGE¹⁰	A charge per thousand of the face amount of the Base Policy and Additional Insured Rider ³ (AIR). This charge varies by gender, tobacco use, age of the insured, and the face amount band. Base: On a current basis, the charge applies for 10 years from issue and 10 years from the date of any face amount increase. On a guaranteed basis, the charge remains level and applies for all years. State variations may apply. AIR ³ : This charge applies to any Additional Insured Rider for 10 years from rider issue date and 10 years from the date of any increase in rider face amount.
PREMIUM EXPENSE CHARGE¹¹	As premiums are paid: Current 4%; guaranteed 6%. PR: 6% current; 8% guaranteed
INDEX ACCOUNT MONTHLY CHARGE	0.06% monthly (0.72% annually) of the value in the index accounts, taken on the monthly policy date through age 120, pro rata by account value, then pro rata across segments within each account

This is a brief overview of the *Transamerica Financial Foundation IUL*. For further details, including fees and charges associated with this product, please refer to the consumer brochure. Certain features, terms, and charges associated with this product may vary by jurisdiction. All guarantees are based on the claims-paying ability of the insurance company.

Index universal life insurance is not a security and index universal life insurance policies are not an investment in the stock market or in financial market indexes. Index Account Interest is based, in part, on index performance and does not participate in any stock or security. Past performance of an index is not an indication of future index performance.

There is no guarantee that any Excess Index Interest will be credited above the guaranteed minimum interest rate for the Index Account(s). Additionally, there is no guarantee that the company will declare an interest rate greater than the guaranteed minimum interest rate for the Basic Interest Account.

Offered by Transamerica Life Insurance Company and Transamerica Financial Life Insurance Company

For Agent Use Only. Not for Distribution to the Public.

MORE INFORMATION

¹ Minimum insured age is 15 days.

² After the No Lapse Period or if the cumulative Minimum Monthly No Lapse Premium requirements are not met, then fluctuations in interest rates and/or policy charges may require the payment of additional premiums to keep the policy in force. Guarantees are based on the claims-paying ability of the company.

³ Additional Insured Rider is available only in CA, FL, GU, NY, SC, and SD.

⁴ Accelerated Death Benefits may be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

⁵ Not available in New York. The Additional Services Rider is not available in Alaska, Georgia, Maryland, Michigan, Minnesota, Pennsylvania, South Dakota, Virginia, and Washington.

⁶ It is possible that additional payments will be required to keep a policy in force while the monthly deductions are being waived. For example, loan interest accruing on an outstanding loan may require additional payments.

⁷ It is possible that additional payments will be required to keep a policy in force while the Disability Waiver of Premium Benefit is being paid. For example, an increase in monthly deductions or decrease in policy value may require additional payments.

⁸ A portion of each monthly payment and a portion of the final lump sum payable under the policy's Income Protection Option are reportable as interest income. The policy illustration provides the tax-reportable percentage for each monthly income payment and the final lump sum based on a 3% guaranteed minimum interest rate and the illustrated face amount. Upon the insured's death, the actual taxable portion of each monthly payment will be calculated and communicated to the beneficiary or beneficiaries based on the actual payout amounts. The taxable portion of the final lump-sum payment will be determined when the payment is made.

⁹ Not all riders are available if the Long Term Care Rider is selected.

¹⁰ Loans, withdrawals, and death benefit accelerations will reduce the policy value and death benefit. Provided the policy is not and does not become a modified endowment contract (MEC), 1) withdrawals are tax-free to the extent that they do not exceed the policy basis (generally, premiums paid less withdrawals) and 2) policy loans are tax-free as long as the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan plus other distributions at that time exceed the policy basis.

¹¹ The company has the right to change current charges and cost of insurance rates. The company may not charge more than the guaranteed maximum charges or rates. Any changes to charges or rates will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to, mortality, interest, persistency, expenses, reinsurance costs, and state and federal taxes. Any increased policy charges, partial withdrawals or loans, failure to pay planned premiums, or worse than expected index performance can (a) reduce the amount of future withdrawals or loans that can be taken and (b) in many cases, increase the risk of policy lapse, reduce the death benefit proceeds, and increase the amount of monthly deductions.

¹² \$250,000 will be the minimum at this time.

¹³ The company reserves the right to discontinue index loans at any time and convert existing index loans to conventional loans.

¹⁴ The company has the right to change current charges and cost of insurance rates. The company may not charge more than the guaranteed maximum charges or rates. Any changes to charges or rates will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to, mortality, interest, persistency, expenses, reinsurance costs, and state and federal taxes. Any increased policy charges, partial withdrawals or loans, failure to pay planned premiums, or worse than expected index performance can (a) reduce the amount of future withdrawals or loans that can be taken and (b) in many cases, increase the risk of policy lapse, reduce the death benefit proceeds, and increase the amount of monthly deductions.

¹⁵ Persistency Credit is a discretionary credit which may or may not be paid.

¹⁶ If there is a conventional loan the charge is only against the unloaned portion of the Plus account. If there is an index loan, the Index Account Monthly Charge (IAMC) is assessed against the entire value in the Plus account (including loaned value). IAMCs will be taken from the applicable Plus account's unloaned value, pro rata across segments within that account. If there is not enough unloaned value in that account to pay the IAMC, the remaining charge will be taken pro rata by the unloaned value in all remaining accounts and pro rata across segments within each account. The IAMC is not subtracted from the cumulative guaranteed value. Not part of the Monthly Deductions for contract language purposes. IAMC is reversed as part of the premium refund if the Free-Look right is exercised.

¹⁷ Subject to state availability

¹⁸ May not be available in all jurisdictions
