

## Competitive analysis

# Symetra Protector IUL

## Indexed Universal Life Insurance

### Providing a higher level of flexible protection

Symetra Protector IUL offers flexible life insurance protection with strong death benefit guarantees, lower policy charges, and attractive cash value accumulation potential. When paired with our exclusive Putnam Dynamic Low Volatility Excess Return Index™ Strategies (Putnam Index Strategies), Symetra Protector IUL can provide your clients with an even higher level of protection over the long term.

Here's how it stacks up against the competition:

#### The Putnam Index provides:

- ✓ A diversified mix of three asset classes, with a mechanism to manage volatility.
- ✓ A focus on low-volatility stocks, which historically have better risk-adjusted return potential than the S&P 500® Index.
- ✓ Daily, dynamic allocation rebalancing to help target volatility centered around 5%.

Hypothetical is based on a 50-year-old male in a Preferred Non-Nicotine rate class with a \$1 million death benefit. The death benefit option is "level" in all years. The premium solve is to carry the death benefit to age 120 with \$1 of cash surrender value at age 120. A list of full competitor names is provided on the next page. Symetra Protector IUL is a flexible-premium adjustable life insurance policy with index-linked interest options issued by Symetra Life Insurance Company, located at 777 108th Avenue NE, Suite 1200, Bellevue, WA 98004-5135. This policy is not available in all U.S. states or any U.S. territory. Where available, it is usually issued under policy form number ICC18\_LC2.

Guarantees and benefits are subject to the claims-paying ability of Symetra Life Insurance Company.

Symetra Protector IUL has fixed and indexed accounts. Interest credited to the indexed accounts is affected by the value of outside indexes. Values based on the performance of any index are not guaranteed. The policy does not directly participate in any outside investment or index.

Allocations to the fixed account or index strategies are based on the allocation instructions provided at time of application, and may be subsequently changed in writing by the policyowner. When allocations occur, an index segment for each respective index strategy is created. Each index segment has its own index crediting method, index value, index cap, index spread, index floor, index participation rate, index segment term, and index start and maturity date. The index caps, floors and participation rates after the initial index segment term may be higher or lower than the initial rates, but will never be less than the guaranteed minimums shown in the policy. The index spreads after the initial index segment term may be higher or lower than the initial spreads, but will never be higher than the guaranteed maximum shown in the policy.

It is not possible to invest in an index.

Policy endorsements are not available in all U.S. states or any U.S. territory, and terms and conditions may vary by state in which they are available. Where available, they are usually issued under the following endorsement form numbers: Putnam Dynamic Low Volatility Excess Return Index with Bonus Index Account form number ICC22\_LE2 and Putnam Dynamic Low Volatility Excess Return Index with High Participation Rate Index Account form number ICC22\_LE3.

Symetra reserves the right to add, modify or remove any index strategy or crediting method. If any index is discontinued or if the calculation of any index is changed substantially, Symetra reserves the right to substitute a comparable index.

There are other index strategies available within the Symetra Protector IUL policy. Election of a Putnam Index Strategy does not guarantee a greater index credit for any index segment term.

The Putnam Dynamic Low Volatility Excess Return Index (the "Index") is the property of Putnam Investments, LLC, which has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Index.
